If Subscriber assists with the installation of a GNSS Reference Station, the Subscriber will receive Network access for one Trimble rover for 3 years at no cost. Subsequent years will renew at the then current renewal rate per year.

If Subscriber assists with the installation of a GNSS Reference Station, the following shall apply regarding the GNSS Reference Station installation:

- (1) The equipment for the GNSS Reference Station and the antenna mounting equipment will be provided by Provider, all at no cost to the Subscriber.
- (2) Provider will install, at no cost to the Subscriber, in a manner which in no way interferes with the Subscriber's operations at the site, to be approved in advance by the Subscriber, and in a manner meeting Provider standards, a complete qualified Reference Station. If Subscriber assists with the installation of a GNSS Reference Station, the parties agree, to the fullest extent permitted by law, to indemnify and hold each other harmless from and against all liability for any and all claims, suits, demands, and/or actions arising from or based upon intentional or negligent acts or omissions on the part of the parties which may arise out of or result from the use of any of the Subscriber's property and/or activities conducted in connection with or incidental to the installation and operation of the GNSS Reference Station.

Credit:

Once we have completed a census of Network users that elect to continue or cease use of the Network, we will perform an accounting of the pro-rata net value of the fees previously paid by all users and issue Subscriber a "credit" to be applied against future fees due and payable under this Agreement for current subscribers.
